OBJECTIVE

I am a full stack web developer who has been **coding for 2+ years** now. I am a **fast learner** with a **passion for coding** who gets good at almost everything I want to learn or do. I am always **optimistic** and **always motivated** to work hard.

MOOCs

The Complete Web Development Bootcamp 2022 | Udemy

Dr. Angela Yu | The London App Brewery

PROJECTS

Sorting Algorithm Visualizer | 2022

Personal Project

- Created a visualizer for different sorting algorithms using React.js.
- The app creates a bar chart of random values of a user input size.
- Choosing from a number of sorting algorithms, we can see the bar chart being sorted in real time.

Wordle Clone | 2022

Personal Project

- Made a clone of the popular web game, wordle.
- Wordle clone created using HTML, vanilla Js and CSS.
- The app uses around 6000 words for the game.

Web Hosting Service Provider Site | 2022

BSc. Computer Science | Major Project

- Created a web hosting service provider site as part of the major project.

E-plastic Management System | 2021

BSc. Computer Science | Minor Project

- Made our minor project as a solution for a locally found problem.
