

Shehzad Khan

FULL STACK SOFTWARE ENGINEER

Trivandrum | +91 7025061861 | shehzadkhanofficial01@gmail.com

Objective

Full-Stack Software Engineer specializing in **Next.js**, **React**, and **TypeScript**. Proven expertise in architecting **scalable UIs** and **complex backend integrations** using **Node.js** and **PostgreSQL** for high-traffic global projects and enterprise-level applications.

Experience

Revyrie Global, Technopark Trivandrum | Associate Software Engineer **June 2023 - Present**

- Delivered **12+ cross-functional full-stack projects** using **Next.js**, **React**, **TypeScript**, and **PostgreSQL**, maintaining clean, reusable codebases under Agile/Scrum workflows
- Specialized in **RESTful API integration** and **secure authentication (JWT/OAuth)**, implementing robust and scalable backend integrations across enterprise applications
- Led **UI/UX development** for high-traffic global products, translating complex requirements into polished, accessible interfaces
- Recognized with multiple **performance awards** including **Project of the Year 2023** and **Rising Talent 2023** for exceptional technical contributions

Revyrie Global, Technopark | Associate Software Engineer Intern **April 2023 – June 2023**

- Contributed across the full **SDLC** for the company's foundational product, building core features with **Next.js** and **TypeScript** from day one
- Wrote and debugged production-quality code, consistently meeting **high code quality** standards through peer review and thorough testing
- Actively participated in **Agile Scrum** ceremonies — standups, sprint planning, and retrospectives - integrating quickly into a professional engineering team

Education

Kerala University, BSc. Computer Science

July 2019 – March 2022

7.54 CGPA

Skills & abilities

Languages: HTML5, CSS, JavaScript (ES6+), TypeScript, Python, C++

Frontend: React, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express, FastAPI

Databases: MongoDB, MySQL, PostgreSQL

Tools & Cloud: Git, Gitlab, Docker, CI/CD, Jenkins, Jira, Trello, AWS, Firebase, Auth0

Other Skills: Typing speed of ~100 wpm

Projects

Coachella, CocaCola | *React, TypeScript, Tailwind, PostgreSQL*

- Led end-to-end development of a **high-performance QR code scanning system** for official access control at a global CocaCola x Coachella event
- Built **mobile-first responsive UI** with **React** and **TypeScript**, ensuring cross-device compatibility for high-traffic event scenarios
- Integrated **RESTful APIs** with a **PostgreSQL** backend for real-time attendee verification and traffic management

Falc AI | *Next.js, TypeScript, Material UI*

- Architected **enterprise-level admin dashboards** with **Next.js** and **TypeScript**, featuring highly customizable, data-rich widgets for an AI platform
- Delivered seamless **third-party API integrations** and **Material UI** component systems for scalable, maintainable design
- Engineered optimized **low-latency video live-streaming** pipelines, boosting real-time data visualization and user engagement

Learnberry, Codecademy alternative | *React, NodeJS, Express, PostgreSQL*

- Built a full-stack **interactive coding education platform** inspired by Codecademy, supporting hands-on programming exercises
- Developed with **React, Node.js, and Express**, featuring an **integrated browser-based code editor** for live coding and instant feedback
- Designed a robust **PostgreSQL** schema to manage courses, progress tracking, and user data at scale

Emergency Application, Interio by Godrej | *Next.js, Firebase, Typescript, Tailwind*

- Deployed a **production-ready web app** used on-site during the construction of **Aster Hospital, Trivandrum** for Interio by Godrej
- Built with **Next.js, Firebase, TypeScript, and Tailwind CSS**, delivering a fast and reliable experience for an active user base
- Generated dynamic **QR codes** for emergency personnel profiles, enabling rapid identification and response during critical incidents

Awards

Revyrie Global - Project of the year 2023, Rising Talent 2023
